### NATIONAL CONSULTANT

#### **‘TO CONDUCT REVIEW OF NATIONAL INSTRUMENTS (POLICIES & STRATEGIES) AND FACILITATE A NATIONAL CONSULTATIVE WORKSHOP TO DEVELOP AN ALL-INCLUSIVE AND DELIBERATE AQUATIC BIODIVERSITY STRATEGY FOR WOMEN’S EMPOWERMENT IN AQUATIC BIODIVERSITY AND ENVIRONMENTAL MANAGEMENT IN ABIDJAN, CÔTE D’IVOIRE’**

### CONTEXT

The African Union Inter-African Bureau for Animal Resources (AU-IBAR), a specialized technical office of the Department of Agriculture, Rural Development, Blue Economy and Sustainable Environment (DARBE) of the African Union Commission (AUC), is mandated to support and coordinate the utilization of livestock, fisheries, aquaculture and wildlife as resources for both human wellbeing and economic development in the Member States of the African Union. The Vision of the AU-IBAR Strategic Plan 2018-2023 is an Africa in which animal resources contribute significantly to integration, prosperity and peace. AU-IBAR’s intervention in the fisheries and aquaculture sector is guided by the Policy Framework and Reform Strategy for fisheries and aquaculture in Africa (PFRS) which is aimed at improving governance of the sector for increased sustainable contribution to food security, livelihoods and wealth creation. Also, within the framework of the African Union 2063, the Africa Blue Economy Strategy (ABES) was developed to guide the development of an inclusive and sustainable blue economy that becomes a significant contributor to continental transformation and growth.

To support the implementation of Africa Blue Economy Strategy, AU-IBAR, with support from the Swedish International Development Cooperation Agency (SIDA), is implementing a three-year project on “*Conserving Aquatic Biodiversity and ecosystems in African Blue Economy*”.

The overall objective of the project is to enhance the policy environment, regulatory frameworks and institutional capacities of AU member states and regional economic communities to sustainably utilize and conserve aquatic biodiversity and ecosystems. The specific objectives of the project are as follows:

1. Ratify and/or align relevant international/regional instruments related to blue economy themes (with specific reference to protecting and conserving biodiversity);
2. Optimizing conservation and sustainable use of biodiversity while minimizing conflicts among blue economy sub-themes;
3. Strengthening measures for mitigating the negative impacts of coastal and marine tourism oil, gas, deep sea mining and climate change on aquatic biodiversity and environment;
4. Strengthening gender inclusivity in aquatic biodiversity conservation and environmental management.

An important area which the project is addressing is promoting gender mainstreaming in conservation of aquatic biodiversity and environmental management to address and remove gender-based barriers, that are most often experienced disproportionately by women and strengthen gender inclusivity in aquatic biodiversity and environmental management in AU member states.

AU-IBAR commissioned studies to identify priority issues and actions for enhancing the role of women in aquatic biodiversity and environmental management, and facilitated the drafting of a Continental strategy on gender mainstreaming in aquatic biodiversity conservation and environmental management programmes and initiatives in Africa as an essential tool for attaining the inclusive, transformational development denoted by the blue economy.

To roll out the Continental strategy, AU-IBAR seeks the services of a National Consultant to facilitate actions to support Côte d'Ivoire to develop all-inclusive and deliberate biodiversity strategies as an important entry point for enhancing the role of women and youth in inclusive aquatic biodiversity conservation and integrated environmental management in the context of the Continental strategy.

#### **OBJECTIVES OF THE CONSULTANCY:**

The main objective of this consultancy is to collect information on existing relevant national instruments or documents and facilitate a national consultative workshop to develop an all-inclusive and deliberate biodiversity strategy as important entry point for women's empowerment; for enhancing the role of women and youth in inclusive aquatic biodiversity conservation and integrated environmental management for Côte d'Ivoire.

*The specific tasks for this consultancy will include but not limited to:*

1. Liaise with relevant personnel at AU-IBAR for detailed briefing on the tasks;
2. Identify relevant national stakeholders from biodiversity conservation and environmental management related sectors in Côte d'Ivoire to participate in the consultative workshop;
3. Review existing relevant national policy and strategy documents to identify entry points for developing a gender inclusive biodiversity strategy for women's empowerment in aquatic biodiversity conservation and environmental management in Côte d'Ivoire.
4. Facilitate a national consultative workshop;

5. In consultation with stakeholders, identify priority issues and actions for the development of the National Strategy on mainstreaming gender in aquatic biodiversity conservation and environmental management;
6. In consultation with stakeholders, develop regulatory and policy guidelines for gender mainstreaming in aquatic biodiversity conservation and environmental management in Côte d'Ivoire;
7. In consultation with stakeholders, develop mechanisms for gender mainstreaming in aquatic biodiversity conservation and environmental management in Côte d'Ivoire.

## **ACADEMIC REQUIREMENTS**

The successful candidate should have a minimum of a Master's degree in disciplines related to Gender Studies, Biological and Environmental sciences, Social science, Policy Development studies with focus on Gender considerations.

## **EXPERIENCES:**

### *General Experience*

1. A Minimum of 5 years of relevant work experience in at least one of the sectors - gender and climate change mitigation programmes; conservation of aquatic biodiversity; integrating gender considerations; and women's empowerment in environmental programming; including sector
2. Familiarization with national institutions with functions on environment management and / or aquatic biodiversity conservation.
3. Knowledge and evidence of experience on processes, political and policy related issues in the governance of aquatic ecosystems.
4. Proven experience of working with and mobilizing communities (including women and youth) in riparian and coastal settlements and their challenges.
5. Experience in planning, implementing training and facilitating stakeholders' consultative workshops.

### *Specific Experience*

1. Evidence of familiarization with and supporting or promoting implementation of continental and global instruments, initiatives addressing environmental and ecosystems sustainability, gender considerations, blue economy, and sustainable development
2. Record of performing similar consultancy in gender mainstreaming activities and on projects in the field of the environment and/or related development policies or strategies in Africa; aquatic biodiversity conservation
3. Evidence of involvement in or formulation of policy, strategy development for strengthening gender equality considerations in natural resources governance at national or regional levels in Africa;
4. Familiarization or experience of working with NGOs on issues of environmental management and conservation of aquatic biodiversity.

5. Experience with the practical challenges faced by women and mechanisms for promoting inclusiveness, participatory approaches, including effective engagement of women in aquatic resources management in Africa.

**Required Skills**

- i. Diplomacy and good interactive skills necessary for dealing with senior officials in Government, Regional Organizations, and donor/development organizations in Africa;
- ii. Good networking skills and ability to maintain positive and constructive dialogue and relationships with key institutions or stakeholders operating in the regions;
- iii. Very strong writing, analytical and communication, computer skills are necessary;
- iv. Proficiency in at least 2 AU official languages.

**DELIVERABLES:**

1. Relevant national stakeholders from biodiversity conservation and environmental management related sectors in Cote D'Ivoire identified and listed;
2. Existing relevant national policy documents reviewed and entry points for developing a gender inclusive biodiversity strategy for women's empowerment in aquatic biodiversity conservation and environmental management in Cote D'Ivoire identified, reviewed and documented;
3. National consultative workshop conducted and facilitated;
4. Priority issues and actions for the development of the National Strategy identified;
5. Regulatory and policy guidelines for gender mainstreaming in aquatic biodiversity conservation and environmental management in Cote D'Ivoire developed;
6. Mechanisms for gender mainstreaming in aquatic biodiversity conservation and environmental management in Cote D'Ivoire developed
7. **National strategy for mainstreaming gender in environmental management and aquatic biodiversity conservation developed**

**Location:**

This is a **National consultative workshop** to be organized (physically) in Côte d'Ivoire at a suitably selected place/location.

**Criteria for scoring**

Criteria	Scores (%)
Qualifications	20
General Experience	25
Specific Experience	40
Other skills	10
Proficiency in language	5
Total	100

**Gender Mainstreaming:**

The AU Commission is an equal opportunity employer and qualified women are strongly encouraged to apply.

**Duration:**

The effective duration of this assignment is 10 days but can be accomplished within 30 days from the date of signing the contract.

**Remuneration:**

The remuneration for this Consultancy is USD 3000 after submission of satisfactory report to be paid after submission of satisfactory report based on deliverables.

**Supervision and reporting**

The candidate will be under the direct supervision of the project team leader with oversight supervision by the Director of AU-IBAR. The team leader will have the responsibility of approval of the final report.

**Evaluation Criteria:**

The applications will be evaluated on the basis of the relevant technical qualifications, experience and competence of the candidates.

**Application deadline**

The deadline for submission of proposals is **Monday 13<sup>th</sup> May 2024, 17.00 hours, Nairobi Local Time.**

The address for submission of applications is: Applications including detailed curriculum vitae (CV) should be submitted through email to: [procurement@au-ibar.org](mailto:procurement@au-ibar.org) and a copy to [albert.obiero@au-ibar.org](mailto:albert.obiero@au-ibar.org)

**Documents forming part of this application:**

- Terms of reference
- Declaration on exclusion criteria
- Data protection and privacy statement

**Documents to be submitted with the application**

- Technical proposal detailing the process for planning and facilitating the national consultative workshop
- Academic certificates and Curriculum Vitae
- Identification documents e.g. passport with relevant biodata pages
- Tax status/registration documents
- Signed declaration on exclusion criteria.
